For Immediate Release

CREATIVE SOLUTIONS ANNOUNCES NEW RELEASE OF WEB BUILDER SOLUTION

Dexter, MI—Creative Solutions announced today a new release of their advanced web building system—Web Builder Solution™. The primary focus of the new release was to further simplify the website creation process and provide accounting firms with a wider variety of advanced options to better serve their clients using their websites.

“Web Builder Solution offers users a premium web building tool that is so exceptionally easy to use anyone can create a fully operational website in a matter of minutes,” said Creative Solutions’ Director of Electronic Marketing, Rhonda Lewandowski.

The new release of Web Builder Solution uses a simple step-by-step format to design a customized website, and includes a significantly enhanced graphical user interface. Using Web Builder Solution to create a professional web presence, also enables users to more easily implement NetClient™ private client portals.

“The new look and feel of Web Builder Solution clearly positions Creative Solutions as a market leader in the area of web-based services for the tax and accounting profession,” said Lewandowski.

“As the profession’s technology partner, we must meet all our customers needs, including tax and accounting applications, website creation and hosting, and client connectivity—all under a single, convenient umbrella. Our fully integrated products and services mean our customers need look no further than Creative Solutions for all their professional technology answers,” said Vice President of Product Strategy, Greg LaFollette.

The new release of Web Builder Solution is available immediately.

About Web Builder Solution

Web Builder Solution is a template-based web building tool designed specifically for public accountants and tax professionals. Accountants can create a website by simply selecting from a library of templates and a variety of images, sample text, and color variations. Users can also upload their own images and logos. Web Builder Solution offers numerous sophisticated options, including: financial calculators, newsletter articles, an editable calendar, and professional templates. Firms can also use the system’s advanced email feature, which allows them to create email addresses using their own unique domain name.
