## NEWS RELEASE

FOR IMMEDIATE RELEASE

### THOMSON REUTERS ANNOUNCES PAYROLL CS™ AND MYPAY SOLUTIONS® INTEGRATION WITH INSURELINUX AND CENNAIRUS

*Integration Enables Firms to Process Payroll-based Workers' Compensation with Ease*

**Dexter, Mich., Oct. 24, 2008**—The Tax & Accounting business of Thomson Reuters announced today the strategic alignment of their service bureau offering, which includes Payroll CS and myPay Solutions, with InsureLinx and Cennairus. Integration enables firms that provide payroll services to efficiently process “pay-as-you-go” workers’ compensation. Via Payroll CS and myPay Solutions, firms can access InsureLinx and connect to over twenty leading carriers of workers’ compensation insurance through Cennairus, a nationwide insurance wholesaler.

“The InsureLinx feature enables firms to provide their clients with a powerful and easy-to-use tool for placing workers’ compensation. The firm simply enters client information into the system and Cennairus shops it for the client,” stated Jim Paille, CPP, Director of Business Strategy and Development, Payroll at Thomson Reuters. “InsureLinx also supports calculation of premiums and payment tasks.”

Through enhanced integration, payroll data is securely transmitted in a proprietary format from the Payroll CS/myPay Solutions system to InsureLinx. InsureLinx then calculates the premium and remits payment to carriers on a pay-as-you-go basis. This new feature further elevates the value of Payroll CS and myPay Solutions to the end client by improving cash flow and minimizing audit discrepancies.

“We are thrilled to work with Thomson Reuters to complement their product offering via integration with InsureLinx,” said Jeff Harris, CEO for InsureLinx. “This is a win-win for everyone—including Thomson Reuters, InsureLinx, Cennairus, and our mutual clients.”

Payroll CS is an advanced payroll processing application that offers Internet options and seamless integration with the CS Professional Suite. With dozens of timesaving features, including the Payroll Compliance module and time clock imports, Payroll CS is the most robust tool available for administering client payroll services. For more information on Payroll CS, please visit [CS.ThomsonReuters.com/payroll](http://CS.ThomsonReuters.com/payroll).
