

LEUTHNER TAX & FINANCIAL

ULTRATAX CS

"I love my job and get to go and have fun every day because UltraTax CS easily lets me keep in touch with my clients."

"Reliable software and support make all the difference."

"UltraTax CS has allowed my wife and me to enjoy our lives because of the access to clients' data 24/7. The accurate and reliable tax processing software grants me the ability to quickly process basic and intermediate tax returns at high volumes and high profit rates in January and February. That same easy-to-use UltraTax CS processes high-end returns for doctors, entertainers, and multi-state athletes. We are known as the multi-state experts in our community. I love my job and get to go and have fun every day because UltraTax CS easily lets me keep in touch with my clients scattered throughout the country and world."

"Data Mining allows us to offer additional financial services that meet the clients' needs. By truly knowing which clients would benefit from various financial products and being able to identify them out of the nearly 5000 client returns in our system, the free Data Mining is a great and valuable benefit of UltraTax CS."

"Thank you UltraTax CS!"
