"The crux of my firm's revenue is generated from tax preparation using UltraTax CS."

"I love my job because technology and software has given me the opportunity to provide outstanding service to my clients, thus allowing for my success. My association with Thomson [Reuters] software goes back to the days of CPAIDS, a company many of you would not even know. As the change of ownership has occurred over the past twenty-five years I went with the flow and am I glad I did."

"Although I utilize Payroll CS and Write-Up CS, the crux of my firm's revenue is generated from tax preparation using UltraTax CS. UltraTax CS provides me with the streamlined tax software that enables me to prepare roughly a total of 750 tax returns per season. I accomplish that with only myself preparing all the returns, and working approximately 60 hours per week, with one associate for processing, working no overtime."

"Our average turn-around time is about 48 hours from the time I receive the tax information until the return is completed and ready to be picked up by my clients. My clients are thrilled and amazed in our ability to provide them that kind of service."
