DT FileCabinet, v.2020.1.0
User Bulletin 8659: Update

1 December, 2020

This user bulletin explains changes that we've made with this update of DT FileCabinet®.

CHANGES

Drag and drop documents into File Exchange

The ability to drag and drop documents out of DT FileCabinet and into the DT Client Portal upload window now works as expected.

Password protected drawers

DT FileCabinet allows multiple drawers to use the same password. Prior to this update, entering the password allowed access to all of the drawers using that password. Now entering the password will only allow access to the drawer you entered the password for, not all of the drawers using the same password.

Help & How-To Centre

For answers to questions on using DT FileCabinet, access the Help & How-To Centre by clicking the **Help** link in the DT FileCabinet menu. You can also enter text in the search field and click the Search button. For more information, including sample searches, see [Finding answers in the Help & How-To Centre](#).
