

**2015 FIXED ASSETS CS, v.2015.1.0**  
**User Bulletin FA-15.1.0: Initial Release**

November 23, 2015

---

This user bulletin describes special information related to this release of Fixed Assets CS.®

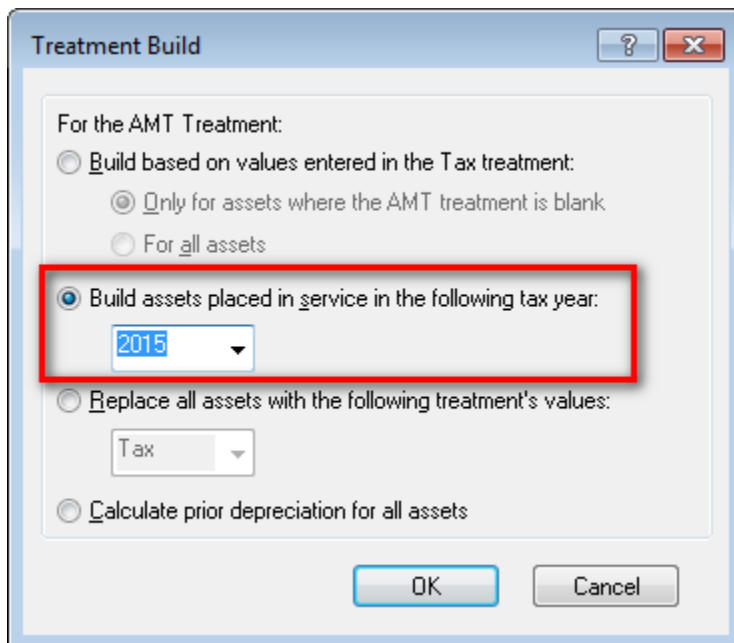

## ENHANCEMENTS

### Importing negative assets

Negative assets can now be imported into Fixed Assets CS when importing data through **Utilities > Import Asset Data > Excel® spreadsheet**.

### Building AMT and ACE treatments

You can select to build the AMT or ACE treatment for a specific tax year for clients in **Setup > Treatments > AMT or ACE > Build**.

### File > Open Client

New icons appear next to the Client ID on the **File > Open Client** dialog to indicate when access is restricted to a client. These icons appear in the following order, if applicable.

-  — This icon indicates that another member of your firm has a client open. Hover the mouse pointer over the icon to see who has the client open.

-  — This icon indicates that a client is password protected. (You can password-protect clients in **File > Client Properties > Advanced Properties > Restrict Access.**)
-  — This icon indicates that your firm logged a discourage access status event for a client. Hover the mouse pointer over the icon to see the discourage access event that was logged most recently for the client. (You can set up discourage access status events in **Setup > System Configuration > Status > Discourage Access.**)

### Divide asset by tax cost

You can now divide an asset by the tax cost in **Edit > Divide.**

### GoFileRoom™ integration

You can now print reports and forms to GoFileRoom (if licensed) via direct integration with Fixed Assets CS.

### Notes

- To enable the integration between Fixed Assets CS and GoFileRoom, you must run desktop setup on each workstation. To do so, click the Start button in the taskbar, enter **X:\wincsi\dsw\desktop\setup.exe** (where **X** represents the location where you installed the program) in the search field, and click OK or press the ENTER key.
- We recommend downloading your licenses to ensure they are up to date for this integration. To do so, choose **Help > About Fixed Assets CS** and click the **Download Licenses** button.

### Tax free disposition

For the 2015 tax year, you can select Disposal not reported on Form 4797 when using the Disposal Wizard and have selected Sold/scrapped as the method of disposal.

### Associations

Associations are available for the new UltraTax CS personal property tax return for North Carolina. For more information, choose **Help > Help & How-To Center**, search on **personal property taxes**, and select “Entering asset data for UltraTax CS personal property tax (PPT) returns.”

### Updated Forms 4562 and 4797

These forms have been updated for 2015.
