GoFileRoom, v.19.2.6
User Bulletin 8628: Update

August 29, 2019

This user bulletin describes changes made for this release of GoFileRoom.®

CHANGES

Documents
- Type-ahead search has been added to some areas of Search Documents, Add Documents, and Reports in GoFileRoom. When you begin to enter a term in the search field, the application automatically provides a list of items available in the drop-down to only those that match the search text.

FirmFlow
- Type-ahead search has been added to some areas of Search WorkFlows and Reports.
- GoFileRoom now includes a space between the name and date on the Routing Summary (By Workflow) report (accessed via Reports > FirmFlow Reports).
- After scanning documents the application automatically routes the workflow to the step and user or group specified on the Configuration tab of the Administration > Manage FirmFlow screen for all drawers.

GoFileRoom Client Add-In
- We have updated the Client Add-In to version 19.0.2.
- When you uninstall the GoFileRoom Client Add-In, the application no longer displays the .Net framework installation prompt if the .Net framework (version 4.7.2 or higher) is already installed.
